1. MD'S MESSAGE

EA Journal #25 | October 2024

Dear Esteemed Readers,

Welcome to this October 2024 edition of the Eversafe Academy (EA) Journal, where we take a moment to reflect on the significant events, celebrations, and progress over the past month. From meaningful visits by key stakeholders to joyous celebrations and advancements in our innovative digital journey, it has been a season of growth and achievements for Eversafe Academy. This issue covers a range of exciting developments, that includes:

1. VISIT AND TOUR BY SSG PERSONNEL TO EVERSAFE ACADEMY
2. DIWALI CELEBRATION 2024
3. ADVANCING OUR DIGITAL CAPABILITIES UNDER THE GUIDANCE OF IMDA
4. MONTH OF AUDITS

1. Visit and Tour by SSG Personnel to Eversafe Academy

The visit from SSG personnel (Mr. Tan Kok Yam (Chief Executive, SSG), Mr. Yeow Ghim Cheong (Senior Manager, QMD), and Ms. Nor Elyana (Manager, QMD)) provided us with an opportunity to showcase our commitment to delivering high-quality training programs, aligned with the standards and expectations set by SSG.

The visit began with a warm reception, followed by a presentation from Mr. Murugesh, the Managing Director of Eversafe Academy, who gave an overview of the academy's vision, mission, and ongoing initiatives to enhance the quality of education and training for professionals and migrant workers.

1. MD'S MESSAGE

EA Journal #25 | October 2024

During the presentation, Mr. Murugesh highlighted our efforts in maintaining strict compliance with international and national government industry standards, fostering student engagement, and implementing continuous improvement measures to ensure excellence in our course delivery.

After the presentation, we had the opportunity to bring the SSG personnel around on a guided tour of our training facilities at our Joo Koon branch

This included a walkthrough of our classrooms, where they could observe the learning environment, as well as our practical training areas including the Experiential Learning Stations (ELS), where hands-on simulation training is conducted.

They were able to witness firsthand the structured approach we employ to ensure that both theoretical and practical components of the training are delivered effectively.

The visit concluded with a group photo, capturing this memorable occasion. The SSG personnel departed around 11:30 am, leaving us with a sense of enlightenment and learning points from the positive interactions and feedback received during their time at our training facility.

We extend our heartfelt thanks to Mr. Tan Kok Yam, Mr. Yeow Ghim Cheong, and Ms. Nor Elyana for taking the time to visit Eversafe Academy. A special thanks to Mr. Yeow Ghim Cheong for coordinating the entire program on behalf of SSG.

Their presence and words of appreciation were highly motivating for our team, reaffirming our commitment to providing the best possible learning experience for our students.

1. MD'S MESSAGE

EA Journal #25 | October 2024

2. Diwali Celebration 2024

As we prepare to celebrate Diwali on 31st October 2024, the atmosphere is already filled with excitement and anticipation. This cherished festival, the "Festival of Lights", holds deep significance for all of us, representing the triumph of light over darkness, good over evil, and knowledge over ignorance.

This year, we are planning a vibrant and inclusive celebration that truly captures the essence of Diwali—unity, joy, and renewal. We will be sharing the festive spirit with all our staff, trainers, and esteemed customers by distributing traditional sweets, symbolizing the sweetness and positivity that this festival brings.

In addition, we are organizing special classes for our migrant workers, offering them an opportunity to utilize their holidays productively while embracing the joy and spirit of the occasion. These efforts reflect our commitment to ensuring that everyone feels included and appreciated during this important celebration. Happy Diwali in advance

1. MD'S MESSAGE

EA Journal #25 | October 2024

3. Advancing Our Digital Capabilities under the Guidance of DLP Office/IMDA

We are pleased to announce that two new digital projects have been submitted to DLP Office/IMDA, and we are currently awaiting project grant approval. These proposals were submitted as part of the Digital Leader Program (DLP), aimed at advancing our digital capabilities and driving innovation in our organization. The two projects—iAudit and iData—are designed to significantly enhance our internal systems and data management processes.

We look forward to receiving approval from IMDA and are excited about the potential impact these digital projects will have on our organization's digital transformation.

4. Month of Audits

The months of September and October mark an important period for us, as we prepare for several critical audits. These audits are essential in ensuring that our systems continue to meet the highest standards of quality, safety, and compliance. Below are the key audits scheduled during this time:

ISO 45001 Renewal Audit – To ensure continued compliance with international standards for Occupational Health and Safety Management Systems.

bizSAFE Star Renewal Audit – Aimed at reaffirming our highest level of safety excellence in workplace safety and health practices.

ISO 29993 Surveillance Audit – Covering both the surveillance audit for 12 of our existing courses and the approval audit for 6 new courses. This is key to maintaining and expanding the quality of our learning services.

1. MD'S MESSAGE

EA Journal #25 | October 2024

- DPTM Audit** – The Data Protection Trustmark audit, which helps demonstrate our commitment to robust data protection and privacy management practices.
- ISO 27001 ISMS Surveillance Audit** – Focused on the Information Security Management System, ensuring that our data and information remain secure and properly managed.
- ISO 22301 BCMS Surveillance Audit** – Verifying the effectiveness of our Business Continuity Management System to ensure resilience and preparedness for any disruptions.

We are grateful for these audits and the standards they uphold, as they push us to continuously improve the quality of our systems and services. Thanks to everyone involved for their dedication and hard work during this audit season.

Conclusion

As we reflect on these dynamic months at Eversafe Academy, it's clear that our commitment to excellence in education, community engagement, and continuous improvement remains stronger than ever.

We look forward to what the future holds as we continue on this journey of innovation, inclusivity, and excellence. Thank you to all who contribute to making Eversafe Academy a well-established training provider in education and safety.

WE HAVE SUCCESSFULLY
TRAINED AND GRADUATED

797,085

STUDENTS AS OF SEPTEMBER 2024

3. FEATURES & HIGHLIGHTS

EA Journal #25 | October 2024

1. BIRTHDAY CELEBRATION OF EVERSAFE ACADEMY'S FOUNDER AND MD, MR. MURUGESH

On 16th September, the staff of Eversafe Academy gathered to celebrate the birthday of their founder and Managing Director, Mr. Murugesh, in a heartfelt and meaningful manner. The day began with a pooja, setting a serene and spiritual tone for the occasion. Following this, a virtual program was held where the staff shared their sincere messages and gestures, reflecting the strong bond and camaraderie that has flourished within the academy.

The evening was marked by a joyful gathering, where laughter and conversation filled the air, further strengthening the sense of unity among the team. The celebration concluded with a delightful dinner, symbolizing the warmth and togetherness shared by all.

This celebration was more than just marking a birthday; it was a profound expression of the admiration, respect, and affection the staff hold for Mr. Murugesh, a reminder of the values of kindness, support, and leadership that define Eversafe Academy.

2. EA SAFETY COMMITTEE MEMBERS MEETING

Our EA Safety Committee was created comprising of EA Management and selected highly experienced WSH Trainers with a focus on the daily safety surveillance and safety reviews of our 4 training branches. September month meeting was conducted on 30th Sep 2024 at our Joo Koon location. The meeting was headed by our Managing Director Mr. Murugesh along with the 11 other members.

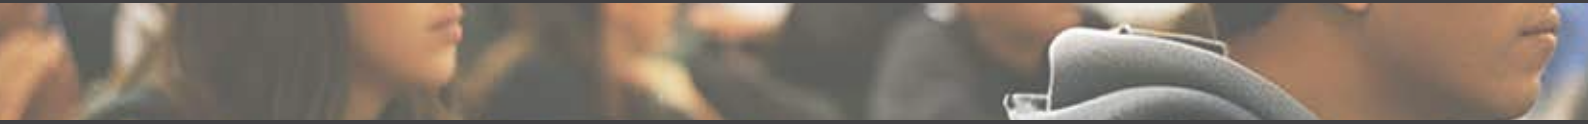

3. FEATURES & HIGHLIGHTS

EA Journal #25 | October 2024

3.

EA has conducted free Computer classes in the month of September 2024. Thirteen students have got benefitted with this class.

EA had successfully conducted free Yoga class in the month of September with the number of students 8.

4.

5.

Eversafe Academy conducted workshop on Mobile Communication on 28th Sep 2024. The number of participants was 75.

Eversafe Academy conducted freshers day on 4th September. The number of participants was 34.

6.

4. INDUSTRY NEWS & TRENDS

EA Journal #25 | October 2024

ENSURING SAFE LOADING AND UNLOADING OF VEHICLES: A COMPREHENSIVE REVIEW OF WSH GUIDELINES

The "WSH Guidelines on Safe Loading and Unloading on Vehicles" provide comprehensive guidelines aimed at enhancing workplace safety during loading and unloading operations, primarily in the Logistics and Transport (L&T) industry. The guidelines were revised in 2023 to ensure relevance in the evolving industry landscape. Key aspects of the document are summarized and analyzed below.

1. ROLES AND RESPONSIBILITIES

In the "WSH Guidelines on Safe Loading and Unloading on Vehicles" the roles and responsibilities of various stakeholders are clearly defined, ensuring that every participant in the loading and unloading process is aware of their duties.

Employers bear the primary responsibility for creating a safe working environment. This includes providing suitable vehicles and equipment for the type of cargo handled, implementing a schedule for maintenance, and ensuring that workers are competent and trained for their tasks.

Managers and Supervisors are responsible for the operational aspects of safety. They must ensure that workers are adequately instructed on the safe use of equipment and vehicles. Supervisors also play a key role in maintaining vehicles and ensuring timely repairs.

Drivers and Loading Crew have critical on-the-ground responsibilities. They are required to check vehicles and equipment before use, adhere to safe work procedures, and ensure cargo is arranged and secured properly to prevent movement during transit. The guidelines also emphasize the importance of wearing personal protective equipment (PPE) such as helmets, gloves, and reflective vests to protect workers from potential hazards during loading and unloading.

This structured approach ensures accountability at every level, fostering a safety-conscious work culture. By making clear distinctions between different roles, the guidelines help prevent confusion and encourage coordinated efforts to reduce accidents.

4. INDUSTRY NEWS & TRENDS

EA Journal #25 | October 2024

2. COMMON HAZARDS AND RISK CONTROL MEASURES

The guidelines provide an extensive overview of the common hazards encountered during loading and unloading operations. These hazards include: Slips, Trips, and Falls: Workers are at risk of slipping on wet or oily surfaces, tripping over debris, or falling from elevated areas. To mitigate these risks, the guidelines suggest improving housekeeping practices, using anti-slip flooring, and ensuring that workers wear appropriate footwear.

4. INDUSTRY NEWS & TRENDS

EA Journal #25 | October 2024

Ergonomic Risks: Repetitive movements, manual handling of heavy loads, and awkward postures can result in musculoskeletal disorders. The guidelines advocate for the use of mechanical aids, such as trolleys or forklifts, to minimize the need for manual labor.

Impact Hazards: Workers may be struck by moving vehicles, falling cargo, or machinery. Proper rigging techniques, safe stacking methods, and traffic management systems can mitigate these risks. For example, securing cargo to prevent shifting and using mechanical guards on equipment can help protect workers from serious injuries.

Drive-away Hazards: Accidents can occur if vehicles move prematurely during loading or unloading. The guidelines suggest the implementation of vehicle restraint systems, such as wheel chocks and interlock systems, to ensure vehicles remain stationary until the cargo is securely loaded and the operation is complete.

The document also highlights the importance of conducting regular inspections to ensure that risk control measures are properly implemented and that workers are adhering to safety protocols.

4. INDUSTRY NEWS & TRENDS

EA Journal #25 | October 2024

3. RISK MANAGEMENT AND ASSESSMENT

Risk management is central to the safe loading and unloading process. The guidelines prescribe a systematic approach to risk management that includes hazard identification, risk evaluation, and risk control.

Hazard Identification: The first step involves identifying all foreseeable hazards related to the loading and unloading process. This can include hazards posed by the physical environment, equipment, and even worker behavior. For instance, risks such as poor stacking of cargo, slippery surfaces, or improper use of equipment should be noted.

Risk Evaluation: Once the hazards have been identified, the next step is to evaluate the risk they pose. This involves assessing the severity of the potential injury or damage, as well as the likelihood of occurrence.

Risk Control: Based on the outcome of the risk evaluation, control measures are put in place. The guidelines emphasize the Hierarchy of Controls, which prioritizes eliminating the risk where possible. If elimination isn't feasible, the next steps include substituting hazardous practices with safer alternatives, implementing engineering controls (e.g., vehicle restraint systems), applying administrative controls (e.g., safety briefings and signage), and finally, using PPE to reduce the exposure of workers to remaining risks.

Regular reviews and updates of the risk assessments are essential to accommodate any changes in the work environment or processes.

4. INDUSTRY NEWS & TRENDS

EA Journal #25 | October 2024

4. CARGO SECURING METHODS

The guidelines provide detailed instructions on how to secure cargo to prevent accidents during transportation. The key securing methods include:

Lashing: Lashing involves using ropes, webbing, chains, or other tensioning devices to secure cargo to the vehicle.

Blocking and Bracing: Cargo can also be secured using physical barriers, such as stanchions, headboards, or dunnage (wooden blocks), to prevent movement. Blocking is particularly useful for preventing forward and backward movement, while bracing can be used to restrain stacked cargo. This method is often combined with lashing for added security.

Use of Nets and Sheets: Nets can be used to cover loose cargo, while sheets are often applied to provide weather protection. In cases where additional restraint is required, sheets with built-in lashing straps can help secure cargo while protecting it from the elements.

The detailed explanation of various cargo types, such as cylindrical cargo, large units, and dangerous goods, ensures that transport operators can apply the most suitable securing method based on the cargo's specific characteristics. The guidelines also include recommendations for securing items like gas cylinders, heavy machinery, and ISO containers, which may require specialized equipment and handling procedures.

CARGO SECURING METHODS

4. INDUSTRY NEWS & TRENDS

EA Journal #25 | October 2024

5. DELIVERY PLANNING

The guidelines advocate for the use of a Delivery Plan, especially for complex deliveries involving heavy or oversized cargo. The delivery plan outlines key considerations, such as the roles and responsibilities of personnel, vehicle specifications, cargo characteristics, and appropriate securing methods.

This proactive approach reduces the likelihood of accidents, ensuring that safety measures are in place from the moment cargo is loaded until it is delivered and unloaded.

CONCLUSION

The WSH Guidelines on Safe Loading and Unloading on Vehicles offer a comprehensive framework for ensuring the safety of workers involved in logistics and transportation activities. By emphasizing the roles and responsibilities of all stakeholders, addressing common hazards, and promoting risk management, the guidelines help create a safer working environment. Additionally, detailed cargo securing methods and the introduction of delivery planning ensure that safety is maintained throughout the transportation process. Implementing these guidelines is crucial for minimizing workplace accidents, improving operational efficiency, and safeguarding both workers and goods.

5. MOTIVATIONAL STORY

EA Journal #25 | October 2024

STORY TIME

EAGLE HOVERING

Quite a long time ago, a bird's egg separated the hen's eggs. A couple of days after the fact, chickens emerged from those eggs. The falcon's child was likewise one of them. They grew up among them. He would do what the remainder of the chick played, around to a great extent in the dirt, pimple, and eat the same way for the day. Like the remainder of the chicks, he also could fly somewhat higher and would catch fluttering wings.

Then, at that point, one day he saw a bird flying in the open sky. The falcon was flying courageously. Then, at that point, he requested the rest from the chicks, "Who is that great bird taking off?" You can fly since you are a chicken!

"The hawk kid acknowledged this fact and never attempted to be that way. He lived like a chick for his entire life and passed on without knowing his actual strength one day. Companions, large numbers of us carry on with a below-average life like that hawk without knowing our actual potential.

The unremarkable mess around us likewise makes us fair. We fail to remember that we are out of our potential outcomes. Purna is an animal. The sky's the limit for us in this world, yet we botch a major opportunity of having an existence.

Lesson

Try not to resemble chicks. Trust yourself, and your capacity. Any place you are, whatever climate you are in, perceive your capacities and show them flying at the stature of the sky since that is your existence.

Eversafe Academy Health Challenge Results – September 2024

We are thrilled to announce the results of the Eversafe Academy Health Challenge for September 2024! It's truly inspiring to witness our community's continued dedication to health and fitness as we push ourselves towards a healthier lifestyle each month.

Building on the momentum from August, September was all about maintaining consistency and setting new personal records. The focus on achieving the daily goal of 10,000 steps has once again demonstrated its power in promoting physical and mental wellness. It's amazing to see everyone's progress and the commitment to making health a priority.

Without further ado, here are the champions of the Eversafe Academy Health Challenge for September 2024:

A big congratulations to Aparna, Elizabeth, and Anitha for their remarkable performance this month! Their dedication and hard work have set a new standard, showing that every step counts towards achieving our goals.

Let's continue this momentum! As we step into the next month, let's keep supporting and encouraging each other on our fitness journeys. Remember, every stride brings us closer to a healthier, happier version of ourselves. Stay active, keep moving, and let's aim for even greater achievements in the months ahead!

DON'TS AFTER A MEAL

9 THINGS YOU SHOULDN'T BE DOING AFTER HAVING A MEAL

THERE ARE SEVERAL FACTORS WHICH AFFECT YOUR HEALTH. SOME YOU CANNOT CONTROL, SUCH AS YOUR GENETIC MAKE-UP. BUT WHAT YOU CAN CHANGE AND CONTROL IS YOUR LIFESTYLE. MANY OF US INDULGE IN HABITS THAT ARE NOT AT ALL HEALTHY AFTER CONSUMPTION OF FOOD. LIKE EATING CERTAIN FOODS AFTER MEALS MAY CAUSE SOME REACTION WITHIN YOUR BODY, WHICH FURTHER INTERFERE WITH YOUR DIGESTION.

IMMEDIATE SMOKING

IMMEDIATE CONSUMPTION OF TEA COFFEE

IMMEDIATE CONSUMPTION FRUITS

GULPING DOWN A LOT OF WATER

TAKING BATH

INTENSIVE WORKOUT

SLEEPING IMMEDIATELY

GETTING ANGRY OR STRESSED

SLOUCHING

10. FUN WITH PUZZLE & GAMES

EA Journal #25 | October 2024

1.	Prevent slips, trips, and falls	Keep your back straight and bend your knees
2.	To increase productivity and reduce accidents	Aim at the base of the fire
3.	When lifting a heavy object	Report the incident and seek medical attention if necessary
4.	How often should fire drills be conducted	Maintain a clean and organized workspace
5.	You notice a potential safety hazard	Keep walkways and emergency exits clear
6.	Proper way to use a fire extinguisher	Use the elevator
7.	Ensure quick and safe evacuation in case of an emergency	Report it to your supervisor immediately
8.	You experience an electrical shock	Clean up spills immediately
9.	To reduce eye strain	Twice a year
10.	During an emergency evacuation, DO NOT	Take regular breaks and look away from the screen

16. ABOUT EVERSAFE ACADEMY

EA Journal #25 | October 2024

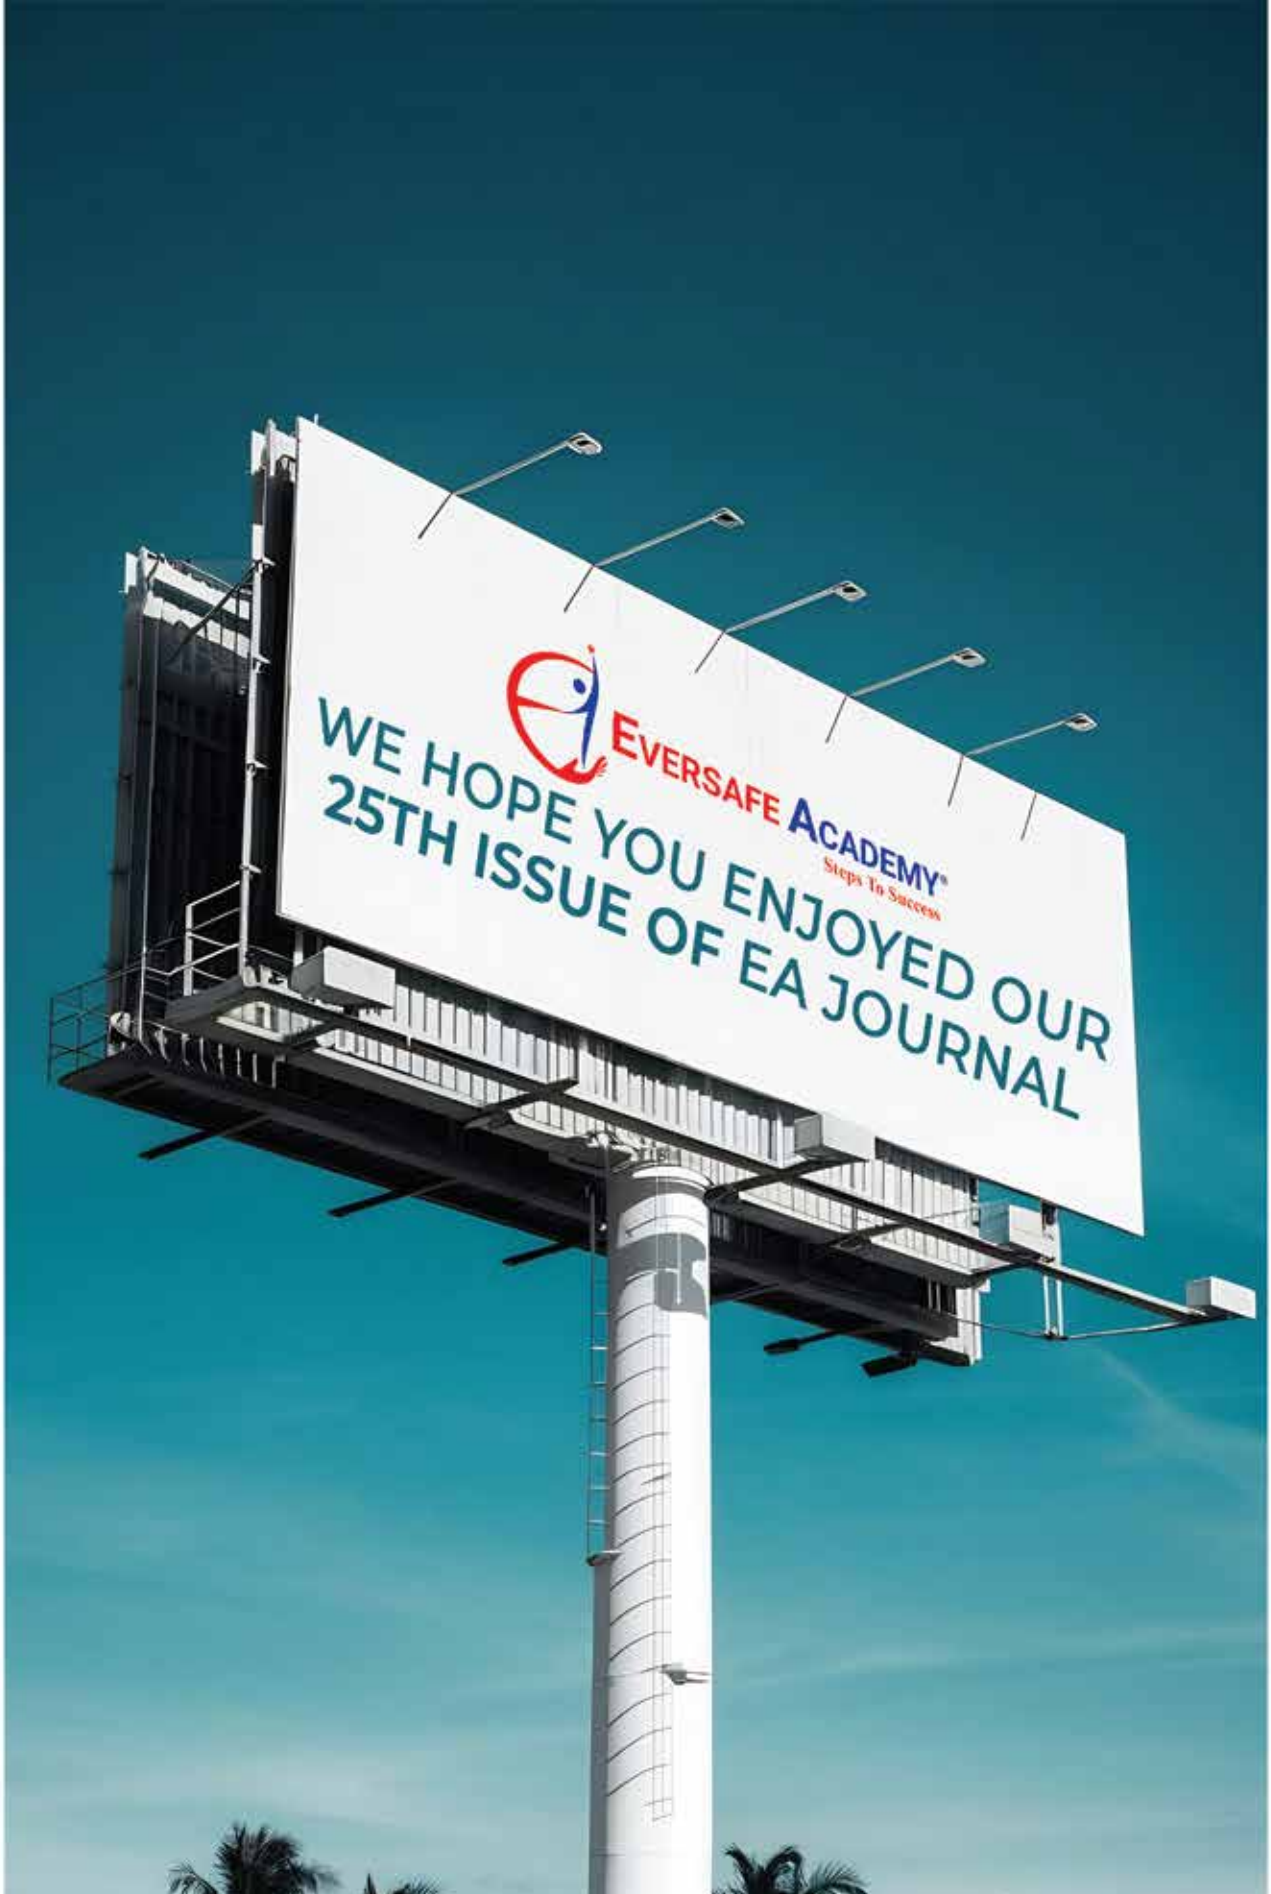

Eversafe Academy is a well-established training institute providing innovative training to meet the needs of the adult learners and PMETs of Singapore and regionally. We are one of the well-known Training Providers in the WSH sector, with a team of highly experienced and dedicated safety professionals who are trained and capable in the implementation of workplace safety, corporate loss control and regulatory compliance. We have a group of experienced engineers.

We shape the safety skill sets of workers, Supervisors and Managers to ensure that they have adequate knowledge to carry out their works safely. We also organize training for corporate companies.

We are also accredited with a 4-year EduTrust Accreditation quality standard mark as part of the recognition of our excellence in quality teaching and student experiences as a registered Private Education Institute.
