

Operate Forklift Simulator Familiarization Training Course (OFSF)

For Whom

This course is designed for new forklift operators, warehouse staff, and workers in logistics who want to gain hands-on experience with forklift operations before enrolling in a Operate Forklift course. No prior forklift experience is required.

Course Overview

This course provides hands-on training using a forklift simulator to familiarize operators with safe forklift operations in a controlled environment. It focuses on basic operational skills, handling techniques, and safety protocols to enhance forklift handling proficiency.

Learning Environment

Our ergonomically designed classrooms are fully air-conditioned, equipped with whiteboards; audio/video equipment and free wi-fi. Forklift Simulator Practical Stations

Entry Requirement

New forklift operators, warehouse staff, and workers in logistics who want to gain hands-on experience with forklift operations before enrolling in a full Operate Forklift course. No prior forklift experience is required.

Operate Forklift Simulator Familiarization Training Course (OFSF)

Course Content

- The course provides hands-on training with a forklift simulator. Participants will start with Control Familiarization to understand the controls. Next, you will practice Driving Forward and Backward both Without a Load and With a Load. You'll also learn to handle a Figure of "8" maneuver and manage Ramps with and without a load. Additionally, you will practice Loading and Unloading Racks, Moving Pallets Between Containers and Staging Areas, and Loading and Unloading Trucks. The focus is on learning to operate the forklift safely and effectively in various situations.
