WSH Officers, WSH Consultants, WSH Managers, WSH Professionals, WSH Trainers, WSH Coordinators, WSH Supervisors

Course Overview

Effective way to implement Total WSH for Safety Professionals (EITWSH) Total Workplace Safety and Health (Total WSH) is an approach that looks at work, safety and health together, as these areas are closely interrelated. It also results in increased productivity as companies that focus on safety have fewer employee injuries and companies with healthy workers tend to enjoy reduced absenteeism and are less likely to be involved in accidents arising from poor health. "In this course, the participants will learn, how the framework encourages companies to view worker health holistically and provides guidance on the assessment of worker's Total WSH needs, as well as the implementation of intervention or preventive programmes. This course highlights the reasons why the Total Workplace Safety and Health (Total WSH) is an approach that looks at work, safety and health together, as these areas are closely interrelated.

Effective way to implement Total WSH for Safety Professionals (EITWSH)
